PROFILS ET SYSTÈMES INDUSTRIES - PSI est un groupe industriel français et familial, majoritairement spécialisé dans les systèmes constructifs pour l'aménagement intérieur des bâtiments, distribués auprès des professionnels de la construction, principalement en France et en Espagne par le biais de ses différentes marques et filiales.

Issu d'une histoire familiale dans le travail des métaux, enrichi par des diversifications et des investissements continus, notre savoir-faire nous mène à viser l'excellence pour le rapport qualité-prix de nos productions, couplé à un haut niveau de service pour apporter pleine satisfaction à une clientèle exigeante.

Appuyées par une forte présence commerciale et un service technique et d'innovation intégré, ces caractéristiques essentielles nous ont placés à des positions de leader et de challenger sur nos marchés de l'ossature métallique et de l'accessoire.

Après 70 ans d'histoire patrimoniale et industrielle, nous relevons chaque jour avec nos collaborateurs les défis de notre époque : rester ultra-performants et compétitifs, répondre aux besoins spécifiques de nos clients et à l'évolution des modes constructifs, accentuer notre démarche responsable en continuant les investissements et les processus développés depuis quatre générations.

NOS MARQUES

SPP, Société de Profilage du Poitou, est spécialiste du profilage depuis 1982 en ossatures métalliques pour plaque de plâtre, plafond modulaire, plafond longue portée et plafond STI (Sous Toiture Industrielle). SPP c'est aussi des gammes de produits de plafonds métalliques et de profilés de finition pour enduits extérieurs. Depuis 2020, SPP a étendu sa gamme avec la production de plaques de plâtre.

PAI, Pièces et Accessoires Industriels est spécialisée dans la fabrication d'accessoires pour la pose de plaques de plâtre, plafond modulaire, plafond longue portée et doublage sur ossature. Sa gamme s'étend aux fixations, bandes à joint, trappes de visite et profilés de finition pour enduits
